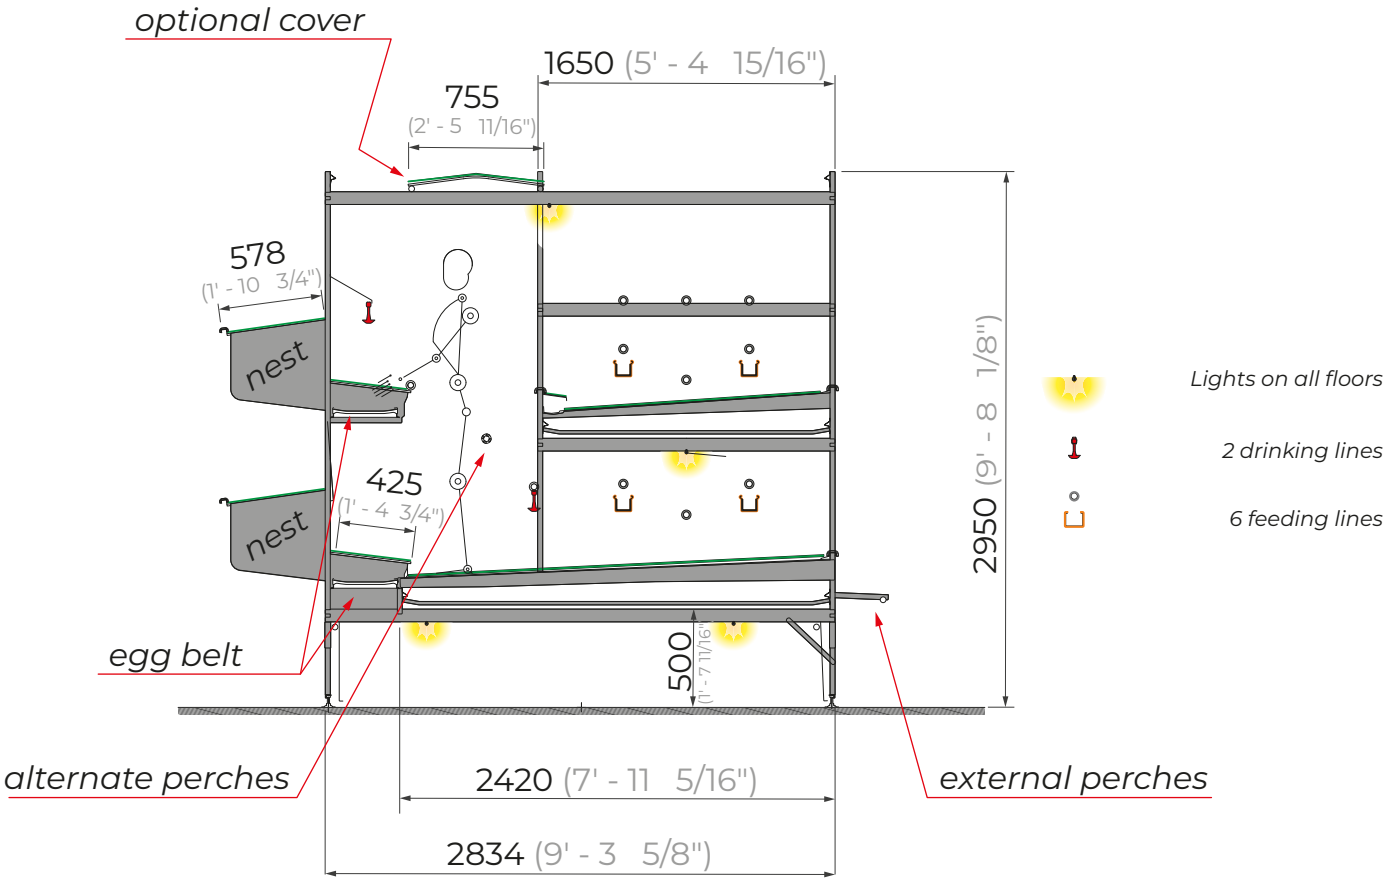
Volo - **VOLARE** 2 tiers

LAYING AVIARY - ALTERNATIVE SYSTEM

Usable Area 6.83 m² per linear meter



Flexibility and adaptability

- 2 or 3-tier configurations, available in two widths
- 2,900 mm modular elements, easily adaptable to different farm types
- Self-supporting, solid and versatile structure, suitable for new and existing installations
- Space maximization: up to 10 m² usable area per linear meter

Simplified management for operators

- Internal corridor for quick and safe inspections
- Direct access to nests and easy monitoring of feeders, drinkers and perches
- Easier cleaning and maintenance, reducing working time
- Optional: third line of nests configurable

Optimized feeding and watering

- 4, 6 or 8 flat-chain feeder lines, functionally positioned
- Integrated drinker lines, including one in front of the nests

Animal welfare at the center

- Staggered terraces, movable perches and fixed covers at different heights to ease movement
- Design that stimulates natural behaviors, improving health and productivity

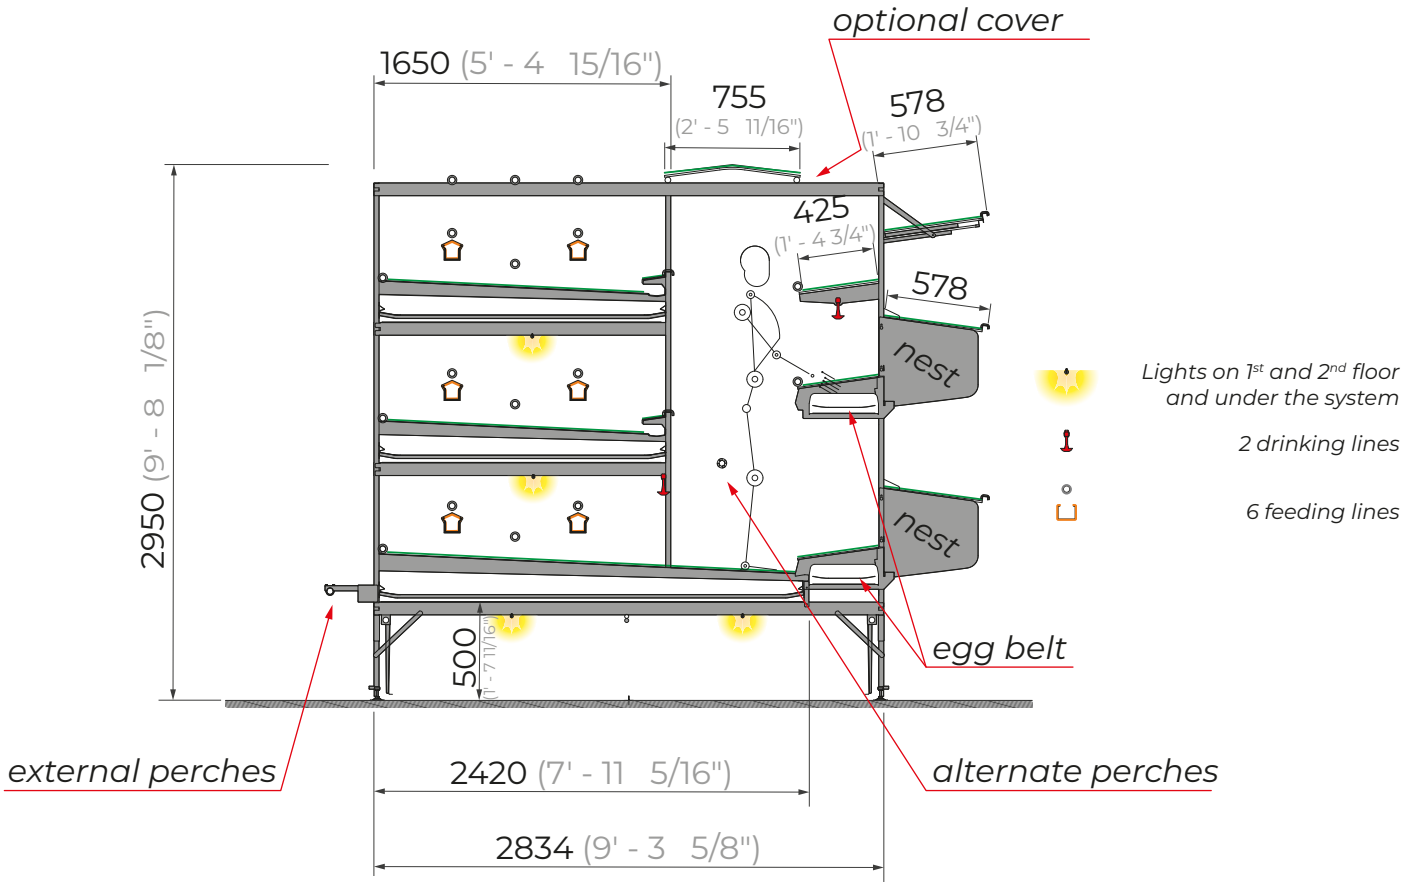
Strength and sustainability

- Stainless steel feet ensuring resistance and durability
- Polypropylene belts for manure collection and transport
- Solutions that reduce working time, consumption and environmental impact

Volo - **VOLARE** 3 tiers

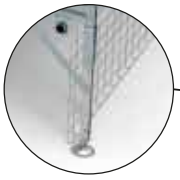
LAYING AVIARY - ALTERNATIVE SYSTEM

Usable Area 9.48 m² per linear meter

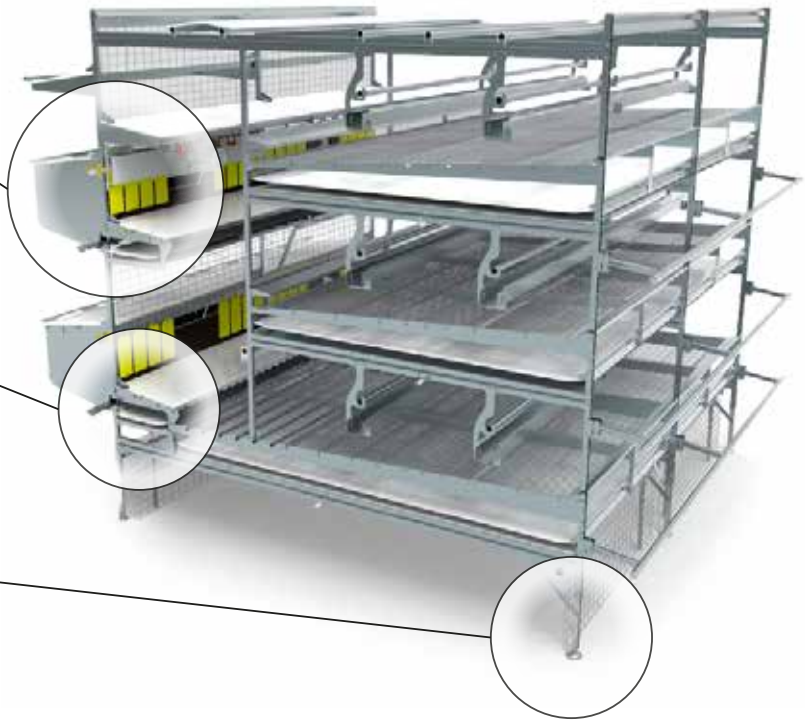


550 mm wide continuous nest

Egg belt 350 mm wide



Feet in stainless steel



VOLO VOLARE the new aviary designed for the animals and for those who care for them.

Thanks to the internal corridor inside the aviary, the operator can walk through it, checking on one side the nests (positioned externally to the main aviary structure) and on the other side the feeders, drinkers, and perches.

EXCELLENCE IN POULTRY EQUIPMENT
